REMEDIAL COACHING PROGRAMME 2022-2023

The remedial coaching programme envisions to support weak learners in different subjects and provides them more focused teaching support to enhance their qualitative and quantitative subject knowledge, academic skills and linguistic proficiency. Since our college has majority of students whose socio-economic status is weak, the remedial coaching offers them a good sustenance and attention. Faculties also get a chance of effective mentoring of such under privileged groups. The main facets of remedial coaching carried out in our college are well organized classes, exact screening, proper training and timely unit tests. These strategies have facilitated us to upraise our pass percentage.

Like every year, this year we started with mentoring and screening students' learning abilities through mentors and we tried our best to provide our students good support through remedial coaching. All the faculty members did their best to meet the challenges for bringing up the levels of weak students and make them competitive enough to stand with other average students and to an extent with the bright students of the class.

Bifurcation was done based on their previous year results and timely taken unit test in the beginning of semesters. Weak students were identified on the basis of their results and lack of class participation. Later, schedules were made to conduct remedial classes so that students could make improvements in their academic as well as personal lives. Even though the hours we could spend for remedial were limited, most

of the departments had done it efficiently. The following is a brief report on student participation, faculty engaged with the programme, hours of remedial coaching conducted by the various departments.
