**7.1.5. - Green Campus Initiatives**

**Vermicomposting Unit:**

Vermicomposting is being done with the segregated wet food waste, paper, tree-leaves and other recyclable items. The manure generated is in turn used in gardening of herbal garden as natural fertilizer.

## MoU's for recycling E-Waste and Solid waste:

The consumption of electronic goods and equipment are put to optimum use by proper upgradation and regular maintenance. For the professional and regular maintenance and disposal of e-waste, college has collaborated with local service provider. Periodic checking ensures that nonworking and defective equipments are disposed-off properly.

**Deep Infotech**  
Computer Sales & Service

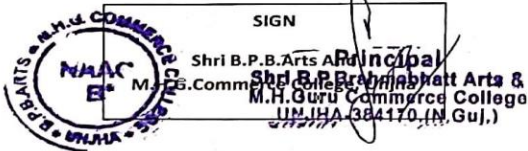

### Memorandum of Understanding

The Memorandum of Understanding is done between Deep InfoTech and Shri B.P.Brahmbhatt Arts and M.H.Guru Commerce College, Unjha. It will be implementable from today.

Under the provisions of MoU, it is resolved that both the parties will make joint efforts in the field of E Waste Management, technology upgradation and environment consciousness. Deep Infotech has given the responsibility to maintain the computer systems of the college and Deep Info Tech will assist in planning of the E Waste management and also to curb it by maintaining the computers. Deep InfoTech will be responsible for:

1. Proper upgradation and mainanance.
2. Annual maintanance of Electronic gadgets and equipments.
3. Collection and disposal of elctronic parts, wires, screens, computer parts.
4. Proper disposal of E Waste
5. Repairing and reusing of old parts.

Deep Info Tech also agrees to employ the qualified and quality graduate/post-graduate students of Shri B.P.Brahmbhatt Arts and M.H.Guru Commerce College, Unjha for thier routine office administration like account, marketing, general administration, computer job-work.etc. Whenever such professional employees are needed, the qualified students of the college will be given priority in the selection of candidates and would like to give them job opportunity at out unit.

## Use and installation of LED lights

Sensor based energy conservation is achieved by Automation of college's street lighting. It is real time based timer which is used to control the college's street lights. The implementation of this automation circuit has discarded the need for a separate man power for street light operation at college campus with ON/OFF timings precisely set depends upon climatic seasons and the automated circuit is found to be operating satisfactory. By using this timer, we can switch off the lights during the day time preventing power wastage unnecessarily.

## AWARD FOR APPRECIATION

- This is certified that Shri B.P.B.Arts And M.H.G.Commerce College, Unjha managed by Shri Unjha Education Board has organized **TREE PLANTATION DRIVE** on **05/08/2015** in collaboration with Lions Club, Unjha. There were 72 students and faculties participated in the movement. The students planted saplings, plants and big size plants in and around the campus. N.C.C. cadets, N.S.S. volunteers guided the students. The students not only planted the trees but also took oath to maintain these plants on regular bases.
- We appreciate the efforts of the college to promote environment conservation and awareness among citizens and students.

## Appeal

**Sparrows** are getting extinct and so are other societal birds which live around human habitations. We bring the Sparrows back around us. Small birds' mating season is between February to June. In nature they make the nests in shadow, in bushy creepers and trees at a safe height beyond the reach of cat, dog, crows, kites etc.

- ◆ Sparrows do not know how to make nest structure as well as the nesting places. So we give them a ready to use scientifically designed beautiful Sparrow nest. Just hang it under the shade at a safe height of 6' -7' so as to save them from dogs and cats.  
Do not put anything inside as they would bring raw material themselves. Entrance is not supposed to face east & west directions to avoid direct sun. Or else they would not occupy the nest.
- ◆ Hang them at a safe height under the shade.
- ◆ Put a terracotta water bowl nearby and fill it daily with fresh water.
- ◆ With above they have all they require and rest will follow naturally! Bring the chirping sparrows back, enjoy the chirping around and join our initiative for the societal cause!
